Mobilicom makes strong progress with high-tech communications solutions

Mobilicom Limited (ASX:MOB) chief executive officer and co-founder Oren Elkayam updates Proactive Investors on the company's strong progress in making impossible mission-critical communications possible.

The company, which designs, develops and delivers holistic communication solutions for mission-critical and remote mobile private networks without the need for any infrastructure, has made a big impression in the first half of the year and plans to continue its growth into 2020.

Among the advancements the CEO talks about are a partnership with Yuneec International, the world's second-largest player in drones and robotics, and the company's cyber solutions, which are transforming Mobilicom from being purely a hardware company into the software field, where it is well-placed to benefit from recurring revenue.
